Nutrition

Effects of dietary glucose supplementation on the fasted plasma metabolome in cats and dogs.

to publication

Metabolic response to decaffeinated green tea extract during rest and moderate-intensity exercise.

to publication

Impact of short-term intake of red wine and grape polyphenol extract on the human metabolome.

to publication
Nutritional impact on the plasma metabolome of rats.

to publication

Identification of intra- and inter-individual metabolite variation in plasma metabolite profiles of cats and dogs.

Colyer A, Gilham M S, Kamlage B, Rein D, Allaway D.

British Journal of Nutrition, 106(S1), S146-S149, doi: 10.1017/S000711451100081’X, 2011.

to publication

Metabolic effects of dark chocolate consumption on energy, gut microbiota, and stress-related metabolism in free-living subjects.

Journal of Proteome Research 8: 5568-5579
